PROFILE SUMMARY

Lead Full-Stack Engineer with 7+ years of experience designing, developing, and scaling SaaS platforms, enterprise web applications, and secure authentication systems. Specialized in Laravel, Vue.js, Node.js, and modern full-stack architectures, with a strong focus on scalability, security, and maintainability.

Proven experience leading technical initiatives, architecting Single Sign-On (SSO) solutions, implementing Multi-Factor Authentication (MFA), designing RESTful APIs, and modernizing legacy applications. Experienced in mentoring developers, driving technical decisions, and delivering high-quality software across multiple business domains.

Passionate about building reliable, secure, and future-ready systems while leveraging AI-powered solutions, automation workflows, and modern engineering practices to solve complex business challenges.

TECHNICAL SKILLS

Backend & APIs

- Laravel
- Node.js (Express)
- REST APIs, OAuth2, JWT
- Passport, Sanctum

Frontend & SPA Development

- Vue.js, Inertia.js
- Component-based architecture
- State management, SPA patterns
- Bootstrap, Alpine.js, Filament

Databases & ORMs

- MySQL
- Sequelize
- Redis

Architecture & Design

- System Design
- Microservices
- Event-Driven Architecture
- RBAC & Access Control
- SSO & Identity Management

Queues, Monitoring & DevOps

- Laravel Horizon, Telescope, Pulse
- Background jobs & async processing
- Docker
- Git / GitHub

AI & Automation

- AI chatbots & assistants
- AI automation workflows
- AI agents via API integrations

WORK EXPERIENCE

Tech Lead | HeuristicSol Pvt Ltd

Aug 2022 - Present

- Architected and delivered a centralized SSO platform serving 10+ business portals and thousands of users.
- Implemented OAuth2, MFA, RBAC, and JWT authentication for secure access management.
- Built and maintained admin and management portals to manage users, roles, permissions, configurations, and platform operations.
- Developed REST APIs consumed by multiple internal and external applications.
- Optimized background processing using Laravel Horizon and Redis queues.
- Leading the development of Version 2 of the platform, modernizing existing portals using a latest full-stack setup (Laravel, Vue.js, and Inertia.js) to improve scalability, maintainability, and user experience.
- Managed technical direction and mentored developers.

- Developed Car Booking Product from scratch by using Laravel Framework and MYSQL Database.
- Managed other products like POS, RMS etc.
- Integrated various third party API's like Google Map, Payment Gateways etc.
- Used modern technologies and programming languages.
- Collaborated with team members and clients to achieve target results.
- Maintained excellent attendance record, consistently arriving to work on time.
- Increased customer satisfaction by resolving issues.
- Participated in team-building activities to enhance working relationships.
- Participated in continuous improvement by generating suggestions, engaging in problem-solving activities to support teamwork.

Full Stack Developer | MST Developer

Jun 2019 - Jan 2021

- Defined and maintained databases to deliver responsiveness to data client requests.
- Built APIs and Projects from scratch.
- Collaborated with multidisciplinary team of designers, developers and system administrators.
- Integrated front-end elements into applications.
- Created enhancements to resolve client problems and meet operational standards.

Full Stack Developer Intern | Vrooz INC

Mar 2019 - May 2019

- Assisted project manager to prepare implementation plan from technical perspective.
- Adapted and understood Agile and Scrum methodologies.
- Wrote high-quality code to meet customer requirements.
- Designed, developed and tested software applications.
